Ahmed Ijaz

Software Engineer

AhmedIjaz@gmail.com • +923322296886 • Karachi, Pakistan

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 3+ years of expertise in full-stack development, specializing in PHP/Laravel, React.js, and React Native. Proven track record of delivering scalable web and mobile applications that exceed client expectations. Skilled in architecting robust systems, optimizing database performance, and implementing responsive interfaces. Successfully improved application response times by 30% and enhanced mobile compatibility by 40%. Passionate about leveraging emerging technologies and agile methodologies to drive innovation and operational efficiency.

PROFESSIONAL EXPERIENCE

Software Engineer   -

Eterprize Team

- Developed and maintained full-stack web applications using PHP/Laravel framework with MSSQL and MySQL databases. Engineered responsive front-end interfaces using React.js and built cross-platform mobile applications with React Native. Implemented RESTful APIs and optimized database performance, resulting in 30% faster application response times. Collaborated in agile development teams to deliver projects on schedule while maintaining high code quality standards.

Web Developer   -

Graphic Design Hub

- Designed and implemented dynamic front-end interfaces for product configurators using PHP, jQuery, JavaScript, and Bootstrap. Enhanced user experience by creating responsive designs that improved mobile compatibility by 40%. Developed interactive features that increased customer engagement and streamlined configuration processes for end-users, resulting in improved user satisfaction metrics.

Software Engineer Intern   -

Herosoft

- Gained comprehensive hands-on experience in full-stack development using PHP core and ReactJS. Contributed to web application development by implementing both front-end components and back-end functionality. Participated in code reviews and collaborated with senior developers to learn industry best practices, improving coding standards and development efficiency.

EDUCATION

Bachelor of Software Engineering   undefined 2021
University of Sindh

SKILLS

Technical Skills: PHP/Laravel, React.js, React Native, JavaScript/jQuery, MySQL/MSSQL, RESTful APIs, Node.js, Git Version Control, Agile Methodologies, Bootstrap, Flask, D3.js

LANGUAGES

English (Professional): Intermediate

Urdu (Native): Intermediate

PROJECTS

Healthcare Platform Case Management System
Developed symptom-based disease diagnosis application implementing Decision Tree Model for accurate diagnostics. Integrated Flask APIs and designed user-friendly interface with QR code check-in system, reducing hospital wait times by 25% and significantly improving patient experience through streamlined processes.

Technologies: React, React Native, Node, D3.js, Flask

Immigration Case Management Suite
Led development of comprehensive immigration case management suite, integrating third-party services (Dropbox, Monday) to enhance document management and communication capabilities. Engineered scalable backend architecture supporting 500+ concurrent users while maintaining 99.9% uptime, ensuring reliable service delivery for immigration professionals.

Technologies: React, React Native, Node, Dropbox API, Monday API
